Drop E EGBGD

FRETBOARD STRING SCHOOL

- Dobro - Lap Steel - Guitar - Weissenborn -

I first discovered drop E tuning from [Greg Booth](#). He plays several arrangements in this tuning including Pretty Woman. I recommend listening to his work to learn more about this tuning. Yes it's very kewl!

I've also arranged a couple of pieces in the tuning for the dobro including Memory from Cats as well as others. It's an interesting and expressive tuning.
